

Ka Leo o Hawaii

THE VOICE OF HAWAII

VOL. VI.

UNIVERSITY OF HAWAII, HONOLULU, HAWAII, SEPT' 29, 1927.

NO' 3

FROSH ELEVEN TO PLAY KAM ON SATURDAY

First Game of 1927 Season To Start At Stadium

TEAMS ARE READY

New Men at U. of H. Training Daily for Battle

A game between Kamehameha and University freshmen has been arranged by Coach Klum for October 1, at the Honolulu stadium.

Coach Wise and his Kam cohorts are expected to put up a great battle in this clash, while the frosh also promise to make things interesting. The frosh backfield men are fast and heavy. Holt, Kapu, Auld, Herbert, Whitman, and McQueen are turning out regularly.

Holt and Kapu will be battling against former team mates. Both McQueen and Auld starred at Punahou, and are showing up well in practice. Herbert and Whitman are also showing plenty of ability in practice.

Peterson, Philpot, Paoa, Peck, Baker, Castendyke, Siebert, Jacobs, Chalmers, and Friel are working for positions on the line. Both Bill Chalmers and "Corny" Friel are out for centers and are expected to see service. Loehr, Lambert, Giles, Akinaka, Vanatta, Wong, Spillner, Judd, Steere, Akau, Hamamoto, and Hussey may all get into the games at various stages.

For the first time this season, Coach Klum put his Rainbow squad through a heavy scrimmage this week. In the words of Klum, "It wasn't so good and it could have been worse."

Several different types of plays were tried by both teams with various degrees of success.

Reduced Rates Offered Groups

Slight Reduction Is Given on First Class Tickets

Further negotiations carried on by Coach Klum with the Inter-Island Steam Navigation Company have finally produced results regarding a group fare to Maui for the Varsity-Alumni game. They have agreed to issue as many group tickets as Klum can furnish students for, which in this case includes 15 men or women to the group. A saving of \$2.65 under the regular first class fare may be taken advantage of, if students travel in this way. The cut-rate price given by the steamship people is \$12.10. The trip includes first class passage to Lahaina on the Haleakala Friday evening, and return passage on the Mauna Kea at midnight Saturday. The team follows this schedule.

Don McKenney has been given the job of collecting all fares from the students and giving Klum the proper amount after every one who wishes to go to the first "big game" has signed his intention of doing so. Make all checks out to him. All details and plans may be secured from McKenney concerning the trip.

It is probable that many private families on Maui will house University guests and it is hoped that lodging will be obtained for every student. The team will put up at the Pioneer Hotel in Lahaina.

Coach Klum has promised that all students will be admitted free to the game. Professors and instructors will also be given gratis admission, it is believed.

MISS MACFARLANE BACK

Miss Kathrine MacFarlane, a member of our Library staff, is back at work again after spending an enjoyable two weeks visiting in California. Miss MacFarlane visited relatives and friends in Los Angeles, taking several interesting trips in the vicinity of that city.

"California looked good to me," Miss MacFarlane said when speaking of her trip, "but I was glad to get back here again."

Varsity Football Sked

Following is the varsity football schedule for 1927-1928:

Oct. 1 . . . Frosh vs. Kamehameha
Oct. 8 . . . Varsity vs. Alumni (Maui)
Oct. 22 . . . Varsity vs. Oahu Blues
Nov. 2 . . . Varsity vs. Navy
Nov. 11 . . . Varsity vs. Townies
Nov. 24 . . . Varsity vs. Occidental
Dec. 16 . . . Varsity vs. Utah Aggies
Jan. 1 . . . Varsity vs. Santa Clara

NEW PARKING RULES MAKE CAMPUS SAFE

Roads Will Be Kept Clear; Other Space Is Provided

Radical changes have been made in the parking regulations of the University of Hawaii by President Crawford. Due to the increased number of cars now on the campus, these changes have become necessary.

For greater safety of traffic, the narrow roads of our campus are to be kept clear from parking in the future. Ample parking areas are provided, as indicated on the accompanying map.

Parking is allowed on the mauka side of the road by the Library, from the cafeteria to University Avenue, and the latter is open for parking on both sides of the street. Also, the small area between Gartley and Hawaii Halls (shaded on the map) may be used for parking.

Two large parking areas are provided, one next to the farm near the men's dormitory and the other at the Ewa end of the athletic field as shown on the map.

"Please cooperate in keeping the roads clear," President Crawford urged. "It will help us all and make the campus safer."

The road along the upper side of Cooke field, where formerly parking was allowed, will now be kept clear. This was one of the places where accidents were most liable to occur.

(Continued on Page 4)

Discipline Body Changed; Deans Advise Students

A change has been made by President Crawford in the personnel of the Discipline Committee. Heretofore the deans have been obliged to fill a dual position in their relations with the students, first as counselor and adviser and then subsequently sitting in judgment on them in the Committee. Now the deans are to be only counselors, with the other duty taken over by the Discipline Committee of which they are not members.

The Committee will consult with the deans but the latter will be representatives of the students in this consultation. "This," says President Crawford, "should put Deans Keller, Andrews and Lewis in the proper relation to the students, so that individuals may be perfectly free to seek counsel and advice without feeling the restraint which otherwise would exist. It is the desire of each dean to help individual students as effectively as may be possible."

Women of Faculty Will Entertain

The Women's Faculty Club of the University of Hawaii will give a tea for the women of the University on September 30, from 4 p. m. to 6 p. m. at the home of Mrs. Frank H. Dillingham on 2562 Jones Street.

This tea, which is given annually by the Women's Faculty Club, is being given in the fall this year instead of waiting till spring, because the students are not so rushed now as they will be later in the school year, when the numerous senior activities are taking all their spare moments.

Students who have late classes are urged to attend even though they may not be able to take time to dress for the occasion.

With about \$12,000,000 available at the end of this year Persia will begin the construction of railroads in accordance with plans of an American engineer who has surveyed routes in that country.

NEW LOCKER ROOM GIVEN BY STUDENTS

Athletic Quarters Are Offered to Regents for University

COST A.S.U.H. \$4500

President Crawford Tells of Former Student Gifts

The Associated Students of the University of Hawaii last Friday presented to the Regents of the University, the new athletic locker room which was built during the summer from student funds.

The ceremony took place at 4:30 Friday afternoon, in front of the new building, just before the annual frosh-soph fight took place. Percy Lydgate, president of the student association of the University, made the presentation of the building, reading a letter to President D. L. Crawford, who in turn called upon Arthur G. Smith, acting chairman of the Board of Regents, to accept the gift from the students.

This new athletic locker room was built from funds accumulated during several years from the profits of football and other sports, and cost the student association \$4,500. It is to be used for all athletics, both as a storeroom and locker room. The building is well equipped with show-

(Continued on page 3)

Don Blanding To Address Quill

Literary Organization Plans To Publish Magazine

The Hawaii Quill will hold its first meeting next Monday night at 7:30 sharp. For the benefit of new members and visitors this first meeting will be held in Hawaii Hall at the University. The meetings are usually held in the homes of the members. Don Blanding, popular Honolulu artist and author of the famous "Leaves of Grass" will address the club.

He will read selections from his own verse, and also give the members a few hints on how to write, emphasizing local color and popular verse. Those who have heard Don Blanding before know that he is an interesting speaker who can hold his audience as few people can.

The Quill plans to publish a magazine this year. All students of the University who are interested in writing, whether verse or prose are invited to join. The club is especially interested in inviting Alumni members and former members to join them again this year. The meeting is open to the general public and visitors are welcome. If you are interested in joining The Hawaii Quill speak to the president, Miss Marguerite Louis, and come to the meeting Monday night.

U. of W. Students Issue Own Bonds

The Associated Students of the University of Washington as an incorporated body, has entered the financial field in a large way, floating a bond issue of \$350,000. The bonds bear interest at 5% and are due serially from 1930 to 1942, to be paid from income of football and other A. S. U. W. activities. The money is to be used for a gymnasium and "athletic pavilion" to cost \$600,000.

This shows the possibilities for financing athletic activities and developments, but sound credit must be back of any bond issue of this sort.

Notice

R.O.T.C. Freshmen: Get the grease off your rifles immediately. Polish your rifles thoroughly inside and out. Don't accumulate demerits by neglecting to do your duty. See who can get the best polished rifle. (By order of the Military Department.)

Frosh-Soph Fight Proves Close; Flag Is Saved

On Friday afternoon, the annual Frosh-Soph battle was staged on the campus in back of the tank.

About 4 o'clock, the field was in a state of wild activity; seniors were dashing here and there, frosh were frenziedly looking for teammates who had failed to show up, while the calm and crafty sophs were making their preparations for the annihilation of the less organized frosh.

The pole, which had been set up in the morning, a fourteen foot extensible column, was being liberally treated with cup grease by Fred Jensen and his colleagues, while others laid out the ropes for the tug of war. The famous Soph flag had been securely attached to the top of the pole, wrapped around and spiked at two inch intervals with ten-penny nails to prevent it being torn thence by any ravaging frosh who might live to pass the living barrier of sophs at the foot of the pole.

TUG OF WAR FIRST

By this time the field was lined with eager spectators, and Colonel Clarke, with a last look at his watch, gave the signal for the two teams to

line up for the tug of war. When the two teams were straining on the rope, the gun was fired, and the battle was on. Two minutes of gruelling pulling enabled the frosh to pull their opponents through the stream of water from a hose wielded by "Swede" Jensen, senior. The next event, the relay race, went to the freshman. This time the superiority of mind over matter was unsuccessfully demonstrated, for the sophs dropped their baton so often that they were left way behind.

The funniest event was the "Bust the kelly" fight, or the straw hat riot. The participants lined up, and at the signal, set out to destroy the hats of their opponents. For the most part, results were gratifying; when the war was over, there were but eleven hats with their crowns intact, seven for the sophs and four for the less destructive freshmen. The sand bag race came next. The bags, well filled with sand were piled in the middle of the field, and, at the gun, both teams dashed from their respective sides and commenced the

(Continued on page 3)

Student "Y" Will Start Drive For Yearly Expenses

The Young Men's Christian Association of the University of Hawaii will again conduct its annual finance campaign to meet its administrative expenses for the fiscal year 1927-1928.

After a thorough study of the treasurer's report for 1926-1927, the "Y" cabinet made a careful analysis of the Association's financial needs for the present year and has set the figure at \$700.00.

The campaign, which will run for three days—Oct. 3, 4 and 5—will be conducted by two teams, the green and the white. Earl Nishimura, treasurer of the U. H. Y., is general chairman. Hung Wai Ching was chosen solicitor-general of the white team, and working under him will be the following captains: Isaac Iwanaga, John Devereaux, Shiku Ogura and Samuel Kapu. On the green team, Percy Smith has been named solicitor-general, with David Yap, Philip Westgate, Kenneth Chun and Masao Yamada as captains.

The solicitors will interview every male student and male faculty member when the campaign is under way.

U. H. Men Show High Average in Physical Exam

With only 15 of the 230 failing to pass, men of the University made a good showing in R.O.T.C. physical examinations Thursday morning. Ten first year men and five sophomores and upperclassmen failed to meet the physical requirements of the military department. The surgeons attending were Captain Francis J. Clune, Med. Corps, Tripler General Hospital; Captain David L. Stewart, Med. Corps, Fort Ruger; First Lieutenant W. Ahana Wong, 0-213169, Med. Reserve; and two sergeants also from the Medical corps of the Hawaiian Department of the United States Army. Officers witnessing the examinations were Lieutenant Colonel Adna G. Clarke, retired, Captains Nelson and Gridley, Sergeants Gerdes and Keyes—all of the University.

According to Colonel Clarke, the fifteen men who are either underweight or overweight or slightly defective in vision will be transferred from the R.O.T.C. to the Physical Training Department where they will have a better opportunity to make good.

FENCING CLASS MEETS DAILY

Lee Brown and Hugh Patten from Punahou are doing fair fencing with our saber fencing class.

This class meets every Tuesday at 4 o'clock in the afternoon. If any one wishes to join the class they may do so by placing their names in Joseph Swezey's box. It is free to all University students.

Sand blasting has been found better than the use of water in cleaning the lenses of railroad signals, being more efficient and avoiding the trouble of water freezing in cold weather.

HAWAII UNION BACKS DEBATE

Experienced Men Try For Places on U. H. Team

The Hawaii Union officially assumed the responsibility and management of the Hawaii-Oregon debate, at a meeting of the Union held at the home of Dr. Andrews, last Thursday evening. Professor John M. Baker was authorized by the Union to arrange the details of the debate with the aid of a committee selected by him.

SEVEN MEN PICKED

Seven contestants were picked to participate in the final tryouts which were held last evening. Those selected were A. H. Chun, L. Fong, M. Kido, K. T. Lee, W. Mihata, and Q. L. Ching. From this group three debaters will be chosen to represent the University of Hawaii.

Prof. John M. Baker and Professors Bailey and Bachman of the history and political science department, acted as judges.

All of these students have been active in forensics. Q. L. Ching is a senior, a member of the Hawaii Union, and a contestant in the Berndt Contest in 1926 and in 1927.

PROMINENT STUDENTS

Ah Ho Chun is a sophomore and a member of the debating team of the class of '30. He won his laurels as a member of the Mid-Pacific team. Ah Leong Fong is the only freshman who qualified for the final tryouts. He was a member of the inter-class debating team at McKinley, a member of the Nuuanu Y. M. C. A. inter-club debating team, and winner of one of the Nuuanu Y. M. C. A. Oratorical Contests. Mitsuyuki Kido is a senior, secretary of the Hawaii Union, a member of last year's

(Continued on page 2)

U. H. Orchestra To Be Started

Mr. Ben Dorfman, head of the Commerce department of the University of Hawaii, wishes to meet with all those who are capable of playing some orchestral instrument, and who would like to become members of the University of Hawaii orchestra. The first meeting will be held on next Tuesday, October 4, at 1 o'clock in room 103, on the main floor of Hawaii Hall. It will not be necessary to bring instruments to this meeting, as no tryouts will be held until a later date.

The University has had several orchestras organized in the past, but none have survived. There have been many inquiries as to whether or not another orchestra would be organized, and Mr. Dorfman's efforts come in response to this expression of student desire. Mr. Dorfman has had considerable experience in leading orchestras, and is eager to devote some of his time to organizing and perfecting an orchestra at the University.

LEEBRICK MAY ACCEPT OFFER AT SYRACUSE

Release Is Granted for Next Year By Regents

NOT SETTLED YET

Permanent Position Not Desired By Leebrick

Professor K. C. Leebrick, head of the department of history and political science at the University of Hawaii, has been offered a professorship in international affairs in the school of citizenship at University of Syracuse, New York. While definite arrangements have not yet been made by Professor Leebrick, it is understood that he will accept the offer on a temporary basis, for he stated that he does not wish a permanent appointment.

The Board of Regents of the University have granted Professor Leebrick release, effective December 31, of this year, if he wishes to accept permanent appointment at Syracuse. If arrangements for temporary appointment are made, it is probable that the regents will consider granting a leave of absence to Professor Leebrick.

"It would be a wonderful and instructive experience," Professor Leebrick said when asked about the offer, "but I do not want the position permanently. My field is the Pacific area, and I would not like to locate back east for very long."

The school of citizenship at the University of Syracuse is heavily endowed, and is something new in university circles. It is proving so successful at Syracuse that many other institutions are studying the methods used there. Other similar experiments have been tried, but few have met with the success that has attended the new venture at this eastern university.

Professor Leebrick came to Hawaii in 1920, and has been associated with the University since that time. He was formerly a member of the faculty at the University of California, where he received his doctor's degree. Since coming to the University of Hawaii, Professor Leebrick has been very active in both University and community projects. He has lectured throughout the islands, and has helped organize various conferences here. He recently made a tour of many of the leading universities on the mainland.

David Yap Made Tennis Club Head

David Yap, '28, has been elected president of the University of Hawaii tennis club for the ensuing semester. Donald W. Dease '29, has been elected vice president and Tomotsu Kawakara, '29, secretary-treasurer.

Membership is open to all students and a nominal initial fee of 50 cents is the only cost involved. Both men and women are eligible.

The program for the coming semester indicates a busy time. It includes a scrub tournament in October for all men who have not won letters. The purpose of these matches is to give the school a general idea of what coming material looks like. In November there will be a doubles tournament. Indications are that there will be several good combinations participating.

A veteran squad is promised this year with many experienced lettermen. M. Dease, D. Dease, T. Kawahara, Taushima, P. Lydgate, M. Black, E. Cushnie, and D. Yap are all out for the team. These men are all members of last year's squad which took the second place in the Oahu Tennis League. Prospects have been brightened by the addition of several good racqueteers.

U. H. TEACHERS ATTEND MEETING

Mrs. Dora Lewis and Miss Carrie Miller attended the meeting of the Honolulu Home Economic Association last week. The meeting was held out at Kahala Beach.

Ka Leo o Hawaii

Too Many "Dead Beats"

This is going to be a modified, and somewhat distorted sermon. In order that everyone may clearly understand what we are talking about, we will use common parlance to announce our subject, which is "Some people don't know a good thing when they see it."

By way of explaining just what we mean, we will begin by an illustration. Edith Staples, a student at the University for one year, just sent in her subscription to Ka Leo from Los Angeles. Because she "is still very interested in the University of Hawaii and its students," she sends all the way from Los Angeles for her Ka Leo.

Yet there are some 200 students now attending the University who have not enough interest in the University or the students to subscribe, even though many of these "dead beats" help themselves to the papers that are placed in the hall for distribution.

Because we are keenly aware of this situation, we are adopting a new method of distribution of the paper. For a while at least, students will have to present their A. S. U. H. cards, which are going to be returned to them to keep, in order to get their paper. Those who do not have cards will have to do without the paper. It costs money to print Ka Leo, and we cannot afford to make donations to any 200 students, plus a number of professors, who think that they can get something for nothing.

If any students have objections to the paper as it is being run, if they have suggestions, we are always glad to listen to them. We "aim to please." But we have little use for "dead-beats."

Friends of the University

There are often times when the University of Hawaii has an opportunity to see just who are her friends, and who pretend they are, and only pretend. We have many friends among the business men of Honolulu, friends who will do all in their power to help the University, friends on whom we can always count. But there are also, among local business concerns, those who will not go out of their way to help the University, even though we have helped increase the profits of their business by many hundreds of dollars.

The University of Hawaii football team is playing its first game on Maui, and efforts have been made to secure special student rates from the Inter-Island Steamship company, a subsidiary of the Matson Navigation company. The results of our efforts show quite clearly just what sort of a friend to the University the Inter Island is.

The best offer that we could get is a reduction of a dollar or so if the students go in groups of 15. This, we are told, is the same rate offered to any similar group. It is not a student rate, but merely the usual group rate.

The University of Hawaii has, in the past several years, brought many teams here from the mainland, and has sent her own teams to the coast several times. At a rough estimate, this brought over \$75,000 worth of business to the Matson Navigation company, and yet requests for student rates to Maui were refused by this company thru its branch, the Inter-Island Steamship company.

If our request for reduced rates had been met, many students would have made the trip, and the company giving us the student rates would have only been paying off a small portion of its obligation to us. But now, we fear that only a few students will go to Maui to see our first game; the majority will have to stay here. These may soon forget the game, but they will not forget that the Inter Island Steamship company once had a chance to prove its friendship to the University, a chance it failed to take.

Honesty Among Students

There is a matter which has come to our attention that, much as we dislike the task, must be commented upon. This is the matter of students who find things belonging to fellow students, and who fail to return the articles.

It seems that in every group, there are some who will stoop to this sort of thing, although we are glad to say, there are many more who would not. Several articles have been lost by students of the University, lost where someone must have found them. These articles have been advertised for repeatedly, but have not been returned.

In contrast to this rather sordid statement of fact, we are glad to say that more articles have been turned in as found than have been reported lost and not recovered.

While we are here together at the University, we must each respect the rights and property of the other. We are more or less a large family, whose happiness depends on each individual's treatment of the rest of the group. If there are among us those who can not live up to the ideals of the University, the sooner they mend their ways, or leave us in peace, the better it will be for all concerned.

Just Among Us Girls

Bice Makes Use Of Violet Ray In Poultry Work

New Contest Will Be Started Soon at Farm

Under the direction of C. M. Bice, the University is expected to make great progress in poultry work at the farm. Mr. Bice has had wide experience in poultry farming in the states. He first took up poultry work at the Michigan State Agriculture College, and later transferred to the University of Wisconsin, where he received his degree, majoring in poultry.

He was the foreman at the poultry department of the latter school, which gives him valuable and practical knowledge of the different phases of poultry raising. Last July he accepted his present position and came to Hawaii, hoping to give the students and the community new lights in his work, as he sees the possibility of many new developments in this line of work in the islands.

NEW EGG CONTEST
Among the things which Mr. Bice wishes to develop is the new egg laying contest to be held on November. (Continued on Page 4)

"From the Corner"

My dear Hattie, and how are you?So glad that you're back!!! I'm just all flurried with so many new faces around everywhere..... Yes, quite a few of the old girls returned, and the fads that some of them have developed, certainly lend enough variety, if we were to have no new additions!!!

Have you seen Ophelia? My dear, I'm all "ga-ga-" and done up in a tantrum over it!!! I hardly recognized her at first!!! What do you suppose she did to it?..... Peroxide? Yes that's what I guessed!!! No, I don't think so either, not one bit becoming to her!!!

And what do you think about our bare-foot girls with shoes on?Funny? Actually amusing, but they're doing it in Los Angeles and I guess there are some that will always follow.....

There's the bell!!! I must be going to class.....But these women!!! Honestly, my dear.....

EPISODE IN PHILOSOPHY
Professor Myrick: "I want it clearly understood what sort of outlines I expect from you. Now for an example, don't have anything like this:
1. God
2. Angels
3. (hesitates to collect thoughts)
A Bright Student: "3 harps!!!"

Engineers have completed a sea wall from the mainland of Holland to the island of Wieringen as the first step in a plan to reclaim 1500 square miles of land from the ocean.

Japanese Books Are Expected By Professor Harada

Professor Harada, professor of Japanese language and history at the University, is expecting complete works of some of the most prominent Japanese writers of the present period. Among these authors are Mori, Matsume, and Ozaki. The selection was made by Professor Anesaki, librarian of the University of Tokyo.

These books, added to the books already in the possession of the library, will nearly complete our library of Japanese classics. Professor Harada announces that he is also expecting some books in English on Japan and other Oriental countries so that the students who do not read Japanese may have the opportunity to read of the Orient.

HAWAII UNION BACKS DEBATE

(Continued from page 1)

Junior debating team, and one of the two winners of the Berndt Extemporaneous Contest in 1927. Walter Mihata is a senior, president of the Hawaii Union, a member of last year's Junior debating team, and the other winner of the Berndt Extemporaneous Contest in 1927.

GOOD SPEAKERS

Kam Tai Lee, a Junior, is a member of the debating team of the class of '29, a member of the Hawaii Union, winner of the Hiyama Contest in 1926, winner of the Inter-Island Prohibition Oratorical Contest in 1924. Shigeo Yoshida is a sophomore and a member of last year's champion freshmen debating team. He has represented Hilo High School in the Prohibition Oratorical Contest and in inter-scholastic debates.

Greta Glud Gives Supper and Bridge

Miss Greta Glud was hostess at a bridge-supper last Saturday evening at her home on Hunnewell Street.

Miss Emogene Benton was awarded the first prize for the ladies and Miss Chris Doty the second. For the men's prizes, Lieut. L. Hubbard was awarded the first prize and Lieut. J. Partington the second prize.

The guests at this enjoyable affair were: Mr. and Mrs. R. Penhallow, Miss Jean Widdifield, Miss Ethel Widdifield, Miss Chris Doty, Miss Emogene Benton, Mr. E. M. Buckingham, Mr. William Moragne, Lieut. Floyd Brisack, Lieut. Joseph Partington, and Lieut. Leonard Hubbard.

A process that has been patented for seasoning lumber with cold instead of heated air is claimed to produce stronger and lighter building material that is free from shrinkage.

U. H. OFFERS VISUAL ED.

Films Are Available For Use Throughout Territory

F. E. Armstrong, professor of Agricultural Education, is opening a department of Visual Education at the University of Hawaii. Already 38 1/2 reels of motion pictures, chiefly on agriculture, have been obtained, and are ready for distribution about the territory.

The motion picture reels may be obtained from the University of Hawaii by schools, churches, clubs, or similar organizations, or by individuals anywhere in the Territory of Hawaii for non-theatrical exhibitions.

RULES ARE GIVEN

There are a few necessary rules to be observed: Transportation charges, both directions, will be borne by the borrower; the borrower will pay rental on reels where such a charge is made (all films may be used by U. H. faculty free of charge); reels must be returned immediately upon conclusion of the exhibition; if films are destroyed or damaged, the borrower is held responsible; some reels can be borrowed during certain months only; all orders must give full shipping directions; orders should reach the University at least one week in advance of the day on which film is to be used; a second choice should also be indicated, as the film desired may already be booked.

These films are printed on standard width, 35mm, stock. They cannot be run in projectors designed to take safety-standard or narrow-width film.

MANY TOPICS LISTED

A few of the films listed below will give the reader an idea as to what topics the films include: Sugar Cane and Cane Sugar; Bees—How They Live and Work; Milk as Food; Making the Desert Bloom; Taming the Snake; Hawaii Livestock; The Horse and Man; Thomas A. Edison; King of the Rails; Light of a Race; Wizardry of Wireless; Queen of the Waves; and Paper Making.

Additional films will be added to the University's library during the coming year. As the films are received, mimeographed notices will be sent to those who are interested.

English Teacher Tells of Round The World Tour

Miss Cadwell, English instructor and Assistant Dramatic Coach at the University of Hawaii, who returned recently from a 15-month tour among more important countries of the world, gives an interesting resume of her travels.

Besides visiting twenty-two countries, Miss Cadwell represented Hawaii at three great international conferences, namely, The Women's International League for Peace and Freedom, the International Federation of University Women, and The Press Congress of the World at Geneva and Lausanne. One of the most interesting events at the League Conference was the entrance of Germany into the League of Nations. "The United States should enter the League, with reservations of course, if world peace and conciliation is desired," stated this visitor at the international conference.

Most of the world-famous universities, the world's largest cities, the most beautiful museums, and the exceedingly interesting historical scenes were visited by Miss Cadwell. "The University of Beirut reminded me of the University of Hawaii," Miss Cadwell said.

Foreign lands seem to hold a strange invitation to Miss Cadwell. While in Rome, a semi-private interview was arranged with the Pope of Rome. Three months were spent in Egypt. "I rode camels there and think it is a very delightful method of transportation," she stated. "I rode donkeys too, but, I much prefer camels."

When questioned as to whether she was glad to be back, Miss Cadwell said, "Hawaii is the only place to live in. Other countries are wonderful to see, but I would not care to live in any of them."

Among the universities which Miss Cadwell visited were the American University at Cairo, a Mohammedan university, the largest in the world, University of Oxford, and the Centenary, the University of London, the University of Vienna and Munich.

BICE TO JUDGE POULTRY

Professor C. M. Bice, head of the department of poultry husbandry at the University, will leave for Maui next Wednesday to judge the poultry exhibits at the Maui fair. He will return the following Sunday.

In Our Library

By Kay MacFarlane

Summer has come and almost gone (except for swimming and surfing, and green hills, and rainbows, which are always in Hawaii and not just of summer) and to the library it has brought summer school and new books.

These new books are very new and shy just now, rather lost among the numerous treatises on sugar technology, the pineapple and engineering. They are of the arts and not the sciences, they are of life that is lived in grey and golden flashes, of youth and gaiety, and of singing.

MANSFIELD GEMS

Among these are two jade-green volumes, short stories by a young English woman, Katherine Mansfield. She died all too soon for those of us who read and re-read her delightful stories, but not too soon for her to have lifted the short story out of the obvious and sensational and up to a class which modern critics hail as perfection.

Katherine Mansfield saw that life is lived in moments, that it is not so much the great or the unusual which influences our lives and times, as it is the less obvious which colours our moods and causes our reactions to be what they are.

"THE GARDEN PARTY"

In her story called, "The Garden Party," death and life are shown in juxtaposition, but one does not materially influence the other. A man has been killed, yet life goes on in little ways even in the midst of death. Garden parties are planned; wonderful affairs where a real band plays among the lily-ponds and roses, where tea is a dream of cream-puffs and frozen ices, and where everyone smiles and one can hardly decide which are the more gay and beautiful, the women or the flowers. These are planned and so are given, even though a young workman in one of the cottages on the edge of the estate lies sleeping too deeply for the music or the dancing ever to disturb him.

Laura, a daughter of the House, takes the scraps of their party down to the bereaved family to comfort them. It was just growing dusky as Laura shut their garden gates. A big dog ran by like a shadow. The road gleamed white, and down below in the hollow the little cottages were deep in shade. How quiet it seemed after the afternoon. Here she was going down the hill to where a man lay dead, and she couldn't realize it. Why couldn't she? She stopped a minute. And it seemed to her that kisses, voices, tinkling spoons, laughter, the smell of crushed grass were somewhere inside of her. She had no room for anything else. How strange! She looked up at the pale sky, and all she thought was, "Yes it was a most successful party."

U. H. Library Gets Books on Land

Several interesting new books on real estate have been received at the University of Hawaii Library. Among them are "Appraisal of Real Estate," by E. M. Babcock; "Financing Real Estate," by Robert F. Bingham; "Real Estate Advertising," by Ward C. Gifford; "Real Estate Principles and Practice," by Harry Hall, and "Principles of Real Estate Law," by N. W. Chesney.

DEANS, ALUMNI TO BATTLE ON VALLEY ISLE

Varsity Out To Get Revenge; Alumni Confident

Every effort will be made to win this year's Varsity-Alumni game, according to Coach Klum and members of the University team. Last year the Deans were shaved by a close 2-0 decision, but the tables may be turned this season.

Coach Klum is taking a full squad of 35 to Maui, where the game will be played on Oct. 8. The Varsity mentor says, "We are going to win that game if we can." So there is a good chance that the Deans will.

However, the Alumni are a rip-snorting tearing bunch of pigskin warriors, and are not favorably disposed to taking a defeat.

They are captained this year by "Pump" Searle, one of the flashiest men and probably the best plunging full-back ever turned out by the University of Hawaii. This threat is augmented by the able assistance of about a half dozen other competent backs, including the two Fernandez brothers, Walter and Eddie, and Kenny Auld, Fincke, Teddy Hair, and Bill Brash. The last named is another top notch performer.

GOOD ENDS

On the flanks the alumni team has superlative strength. Duke Thompson, Colby Tarleton, Allan Brown, and Henry Wicke, are all ends, and all former University of Hawaii men.

The forward line is a veritable brickwall, with Johnny Traut and Jim Cruickshank, two of the best centers in Hawaii, fighting for the pivot position. Dan Ainoa, Louie Collins, W. Jacobson, Archie Kaaua, Pete Hanohano, Henry Copp, and Sam Fuller and some other guards and tackles of note.

Chinese Club Gives An Informal Tea

A tea was given by the Young Chung Hui club at the Kawaiahau Play house on Saturday, Sept. 24, from 3 to 5 p. m. President Wai Sue gave an introductory speech, after which games led by Elsie S. Ting were enjoyed.

The purpose of this club is to stimulate an interest in Chinese art and literature, and to create a better understanding among the Chinese women of the University.

Frosh-Soph Fight Proves Close

(Continued from Page 1)
fray. Aside from the final event, there was more brawn displayed in this race than in any other. Here the brawny ones shone; it was a common sight to see a brute of a football player nonchalantly carrying a bag over to his side with a dozen frosh dangling from various portions of his anatomy, deposit the bag, shake off the frosh, and return for another bag. The brawl ended with the frosh in possession of 15 bags to the sophs 14.

SOPHS KEEP FLAG

By this time most of the participants were in a rather fatigued condition, with the possible exception of the football players. However, everyone snapped out of it enough to prepare for the epic of the day, the flag rush.

Grouping themselves around the pole, the sophs confidently awaited the attack of the desperate frosh. It was not long in coming. The fight began, a real ripping, roaring, tearing, mele. The flag soon forgotten, frosh and soph really got together for the first time in the day and an enjoyable time was had by all. Walter MacFarlane and "Rusty" Holt got in some dummy practice, and others were not backward in removing clothing from their opponents.

An interstate wireless conference held in Australia recently asked the Federal ministry to appoint an advisory board to assist in the administration of broadcasting stations.

Freshman Girls Receive Ducking

Sophs Put First Year Co-eds Thru Their Paces

"Good chance to get my dress turned front side around and those clumsy men's shoes and loud socks off; I never did like hair-ribbons either," declared Miss Leontine Hart, one of the four girls thrown in the swimming tank as the climax of the freshman women's initiation Friday. Miss Beatrice Newport, Miss Ruth McLean, and Miss Hutchins, were also given the water cure.

The fun began when the freshmen, all seated on the ground in front of Hawaii Hall, with the upperclassmen as the audience, were called upon by their second year adversaries to do various stunts for the amusement of the crowd.

HAVE FACES WASHED

Bright and early, the Sophomore Welcome Committee, composed of Miss Ada Forbes, Miss Anne Moore, Miss Norma Bemrose, and Miss Isobel Hockley, brought forth their young and beautiful charges, washed their faces and set them upon the front steps to be admired by the upperclassmen.

If the apparel of these forty damsels is any indication, the latest style bulletins from Paris will advocate large brilliant green ribbons in the hair, abbreviated frocks hind side foremost, and trench boots, size 11. The first breach of etiquette was made when Miss Hart, was invited to sit on the Senior Bench. Instead of declining and ordering a chicken sandwich, she accepted, and was promptly chased thence by "Brute" Wirston and his henchmen, Myatt and Jensen.

A relay race was then staged between two Frosh teams, the Sylphs and the Fairies. Miss Francis Cooper, running anchor for the Fairies, saved the day by coming up from behind and beating her nearest competitor. The next attraction was a Highland Fling, perpetrated by two awkward Frosh.

MISS NEWPORT SWIMS

A little (very little) talent was unearthed in the next event when a 100 meter dryland Breaststroke swim was fought out between Miss Lois Bates, McKinley star and Miss Beatrice Newport, National A. A. U. champion. Both aces got off to a fair start, Newport taking the first lap, but an ill advised attempt to stop and pick wild flowers on her way to the finish line lost her the lead, and the race was declared a tie. It is rumored that both stars have refused movie contracts, and unless some handsome millionaire comes along, neither will marry yet.

Miss Ruth Robbins, a cave woman in the Frosh outfit, rather unexpectedly descended as a wolf upon the fold and scared the wits out of an unsuspecting upperclassman by proposing marriage. As it was not leap year, the bashful boy was obliged to refuse.

GIRLS GIVEN DUCKING

Miss Hart, Miss Newport, Miss MacLean, and Miss Hutchins were then inspected by Miss Anne Moore, who, after a critical examination, declared that they had cosmetics in advanced stages. A disinfecting treatment was prescribed, and the affected ones were treated to an immersion in the swimming tank. After a delightful game of "Ring around A Rosy," the multitude dispersed to attend classes.

At lunch time the students were again entertained by Miss Forbes and her willing staff, who made the kiddies right at home by forcibly allowing them to use their knives for all courses.

New Locker Room Given By Students

(Continued from page 1)
ers, medical room, office for the Director of Athletics, lecture room, and storage space for equipment. Arthur Smith, when he had inspected the building, expressed himself as greatly pleased.

President Crawford, in his address at the presentation, called attention to the fact that student initiative has contributed over \$30,000 worth of improvements to the plant of the University of Hawaii. The swimming tank, two new tennis courts, one court given during the early life of the institution, and this new building are among the improvements made possible by student initiative.

The letter from the A. S. U. H. making the University of Hawaii a present of the locker room, follows: To the President and the Board of Regents, University of Hawaii:

My dear President Crawford:
The Associated Students of the University of Hawaii takes pleasure in presenting to the Board of Regents of the University of Hawaii the building known as the Athletic Locker Building.

This building represents an effort on the part of the Student Body to cooperate with people of the Territory of Hawaii, and with the Board of Regents and the Officers of the University of Hawaii in making this University a greater and more effective institution.

This building was built by the Associated Students of the University of Hawaii out of their own funds and is presented as a gift to the board of Regents of the University of Hawaii, with the hope that they will maintain it for the use of the students of the University.

Signed: E. P. LYDGATE,
President, A. S. U. H.
Signed: E. M. LIVESAY,
Athletic Manager.

FROSH ELEVEN PLAYS KAM

(Continued from Page 1)
grees of success. Willie Whittle appeared especially effective on off tackle smashes and short end runs. The other three members of that backfield, McQueen, MacFarlane and Kapu also showed some versatility. This combination of Whittle, Kapu, McQueen, and MacFarlane exhibited plenty of snap. Their execution of the lateral pass was well done at times and not so well done at others. But even at this early stage, it appears that Coach Klum will perfect quite a formidable offensive weapon from this type of pass.

Besides the forementioned quartet in the backfield, the line including Danford, Wriston, Friel, Weight, Nakamura, Captain Kaeo, and Peterson composes quite an aggregation.

The Deans have been strengthened by several new candidates who have joined the squad. Red McQueen, Peck, and Jimmy Glover are the men referred to. Both McQueen and Glover are quarterbacks. Glover is reputed to be a foxy quarter. His reputation, carrying from Florida indicates that he will prove a valuable addition to Coach Klum's squad.

New "U" Courses Offered to Public

Land Economics And Hawaiian To Be Taught Here

Several new courses, in addition to the courses published in Ka Leo last week, were announced by the University Extension Department early this week.

A course in Land Economics is offered by Professor C. N. Reynolds, for the benefit of men and women engaged in real estate work, officials of trust companies and other companies handling land, investors in real estate, public officials dealing with land policies in these islands, engineers in the department of public works, and others interested in land problems.

TO STUDY LAND

The course will include a study of land as an economic factor, with subdivisions including land characteristics and classifications; policies of development and utilization, rural and urban; social and individual viewpoints; property rights; credit and the use of land; methods of appraisal; the nature of property values and reasons for rise and decline; public land; social ends and social control; taxation; other land problems; future trends.

Illustrations will be drawn from local land situations as far as possible. There will be twelve lessons, conducted on Wednesday evenings, from 7:30 to 9 o'clock.

Dr. Reynolds is professor of economics at this University. He was formerly a member of the faculty of the University of Oregon. He has also taught at Stanford University and at the University of California.

TALK HAWAIIAN

J. Frank Woolley is offering a course in Conversational Hawaiian, in which he will seek to teach Hawaiian to the class through conversation. He has been in the islands for more than 20 years, ten of which he spent as a plantation manager at Lale and Hauula. He learned to speak Hawaiian through daily contact with the Hawaiian people. This course will cover 16 lessons, and will be given on Wednesday evenings, from 7:30 to 9 o'clock.

BICE USES VIOLET RAY

(Continued from page 2)

ber 1, at which time the present contest will end. In the present contest there are only white leghorn hens, but he expects to get many other breeds in the coming contest. One of the features of the contest is the judging of the eggs by the grade and not by the number. At present pen number 10, which belongs to Pete Faria, leads the contest and Fred Correia's hen leads in individual contest.

CONTEST FIGURES GIVEN

Following are the tabulated results of the contest to Aug. 31:

Pen No.	No. of Eggs (Total)
10 Peter G. Faria	1048
15 Kewalo Farm	1018
4 Kamehameha Schools	957
7 F. M. Hanson	966
2 Wm. A. Cluney	900
3 Wm. A. Cluney	904
9 Ed. Todd	845
12 Unversity of Hawaii	897
5 K. Kanada	878
6 Hoaeae Ranch	885
8 Alfred Correia	884

Mr. Bice, since coming here, has inaugurated many new experiments, including several with the use of ultra-violet rays on the fowls. Other interesting experiments are the mash diet in which the chicks are only raised on mash food. In the straw ceiling plan, there are eight pens. The first four pens have straw ceiling under the iron roof, and the last four have no ceiling. The straw ceiling makes a difference of about six degrees in the temperature of the pen, which may have considerable effect on the fowls.

BICE WELCOMES VISITORS

There is other interesting work on the farm which the new instructor wishes the students and the public to see. He indicated that he will be glad to welcome any one at the farm and be glad to give helping hands to those who need advice along his line.

A few weeks from now there will be on sale at the poultry division baby chicks and eggs for hatching. Those particularly interested are asked to see the foreman at the farm.

Mr. Bice is very pleased with the conditions here, the students, and especially the trip to these islands, as it was his honeymoon trip.

ADELPHAI ELECTS OFFICERS

Miss Betty Steere senior, was elected President of the Adelpai club Friday. She received 47 votes, while Miss Gladys Pearce, the other nominee for the position polled 14 votes. The voting took place in the girls' rest room from 8:00 a. m. to 1:30 p. m.

PARKING RULES ARE GIVEN

(Continued from page 1)

and its clearance will greatly improve traffic conditions on the campus. Keeping the road behind Hawaii Hall clear will also remove another grave menace. The new parking spaces provided will accommodate all cars with ease.

Signs will soon be placed directing the students where to park, and designating the areas where parking is forbidden. Cooperation on the part of the students is expected by the President, and any violation of the new parking rules will be brought to his attention. Cars found parked where they should not be will be tagged, and the offenders will be called into the office of the President for a little talk.

Work On Annual Outlined, New Cover Designed

Work on Kapalapala, the University's year-book will commence as soon as all the positions on the staff have been filled. At present, only the associate and organization editors have been selected. Other departments that are to be taken care of, are literary, society, feature, sports, humor, snapshot, photograph and art. The entire staff will consist of from twelve to fourteen persons.

The tentative cover design is a picture of the six pillars back of the front steps of Hawaii Hall, embossed in white on a green field, green being the color of the annual cover. The name of the book, Kapalapala, will form an arch just above the embossed area of the cover. Another feature is an opening page for the senior class, which will take the form of a photograph depicting two seniors, one a man and the other a woman, sitting on the senior bench. The former will have on his Stetson sombrero while the latter will wear the senior class sweater for women. Both will appear to be deeply engrossed in an open book. The candidates for the "sitting" have not yet been chosen. The editor requests that all persons desirous of this privilege, make known their wishes to him. He further states that only honest-to-goodness seniors need apply—and they must be of comely appearance.

OTHER ENGAGEMENTS OF STUDENTS

Several other engagements of University students have been announced this summer. Just before the opening of the semester the engagement of Miss Blanche Bogart and Ronald McLennan, '26, was made known. Mr. and Mrs. Albert Judd announced the engagement of their daughter Dorothy to Alexander Jackson. At about the same time Mrs. Hoste Harrison made known the engagement of her daughter Margaret (Peggy) to Nelson G. Pringle. The wedding of the latter couple will take place in Honolulu next July.

HINO GETS COMMISSION

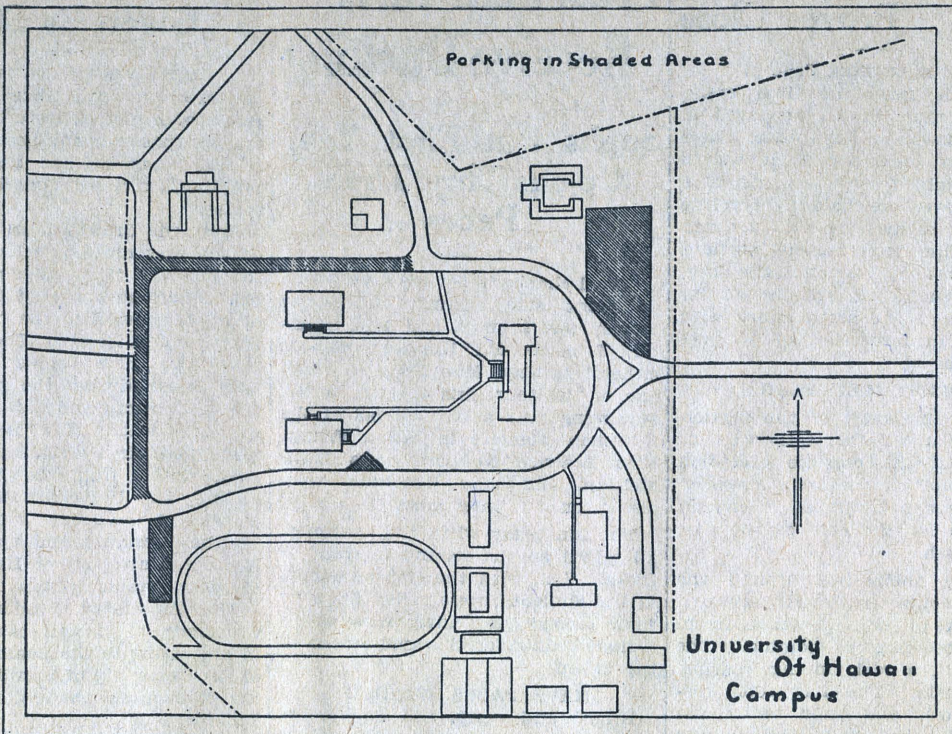

Second Lieut. K. S. Hino, graduate of the class of '27, left Tuesday, September 20th for Schofield Barracks where he will complete his fifteen days of active service. Hino was commissioned on August 25th in the Officers' Reserve Corps. His assignment to company "K" of the 19th Infantry places him under the command of Major F. Lemmon, the father of Margaret and Juanita Lemmon who are attending the University.

September 20th, was an excellent day for Hino to join the regiment, in as much as it was Organization Day, and he was able to learn some of the history of his regiment and to meet all of the officers. He was cordially received by all.

X-RAY STUDY BY KIRKPATRICK

A scientific article on "The Polarization Factor in X-Ray Reflection" has been published by Dr. Paul Kirkpatrick in the Physical Review this year. This is the beginning of a research program which the Physics Department here expects to push.

New Parking Areas Shown

Madam Dahl Gives Rules for Choice of Right Costume

Costume Appreciation is the center of interest in the Household department now. To teach what the modern young lady should wear is the aim of Madam Dahl this semester.

The first type that is being studied this year is the Blonde. To most a blonde is a blonde, but Madame Dahl's students would be quick to correct this impression. There are three distinct classes of blondes. The "Pale Blonde," the vivid "Golden Blonde," and the blonde with red hair. The class of "Pale Blondes" is subdivided into three groups, the "dark," the "ash," and the "moon beam." Each of these many classes of blondes has its own problem of correct color scheme to be studied.

In order to be a well dressed woman these five important factors must be kept in mind. Be well dressed, whatever the fashion; wear clothing suitable for the occasion; wear clothing suitable for the person; and be sure you have the correct proportion. Each of these should be emphasized, but care should also be taken not to overshadow the personality. Know the style and know your type, and learn to appreciate the important relationship between these two, is Madam Dahl's advice to her students.

CO-EDS FORM TEAMS

The women athletes of the University were divided into the Green and White Teams at a compulsory meeting last Tuesday.

The names of the women were drawn by lots and thus were equally and fairly divided. Tuesday at 7:45 the teams will meet to choose their captains and decide upon a definite program.

English Department Is Given Dinner

Dr. and Mrs. A. L. Andrews entertained the faculty members of the English Department of the University at an attractive dinner at their home, 2346 Liloa Rise, Saturday evening.

Miss Cadwell and Miss Hallock, who recently returned from their travels, entertained the guests with interesting talks concerning their summer's experiences.

Among those present were: Dr. and Mrs. A. L. Andrews, Professor C. H. Neil, Miss L. V. Schwartz, Professor and Mrs. J. M. Baker, Mr. and Mrs. Stroven, Miss F. Cadwell, Miss Hallock, and Mrs. Lewis, Dean of Women.

JEAN WIDDIFIELD ANNOUNCES ENGAGEMENT

An engagement of interest to University students was announced last week when Miss Jean Widdifield gave a bridge tea Saturday afternoon and made known her engagement to William Moragne. This engagement is of special interest as it concerns two members of this year's senior class. The date of the wedding is not announced yet.
